# ALIMOLD

## ANTIFUNGAL

**TIPE OF PRODUCT:** QUALITY AND PRESERVATION OF FOOD AND RAW MATERIALS

**SUITABLE FOR:** COWS / PIGS / POULTRY / HORSES / PETS

### DESCRIPTION

Preservative in highly persistent dust for the antifungal protection of raw materials and food.

### COMPOSITION

Acid ammonium propionate, sodium propionate, propionic, Mineral Carrier.

### INDICATIONS

Suitable to be used as inhibitor of fungi and yeasts for food and rations for all kinds of animals in all their categories.

### ACTION

Alimold prevents the production of mycotoxins during the storage of raw materials and reduces the recontaminación during the production, manufacture, transport and distribution of pet food, to inhibit and eliminate the development of sensitive fungi to organic acids.

## DOSE

- With relative humidity between 12-14%: 0,300 to 0.500 kg or l/tn.
- With relative humidity between 14-16%: 0,750 to 1.5 kg or l/tn.
- With relative humidity greater than 16%: 2 to 3 kg or lt.
- Clarification: With more than 17% relative humidity the fungal development is exponential; for both, consult the professional acting.

## PRESENTATION

Paper and polypropylene bags of 20 kg.

200 Lt drums.
