ALINOX

ANTIOXIDANTS

TIPE OF PRODUCT: QUALITY AND PRESERVATION OF FOOD AND RAW MATERIALS

SUITABLE FOR: COWS / PIGS / POULTRY / HORSES / PETS

DESCRIPTION

Specific and innocuous antioxidant complex for animal feed, which ensures the quality of the food and obtained from them throughout their performance.

COMPOSITION

BHT, citrate sodium, sodium calcium Edetate, BHA, Etoxiquin.

Consult by master formulas.

INDICATIONS

It is recommended to protect raw materials (fats, oils, animal meal, etc.), carotenes, vitamins, xantófilas, premixes and minerals and foodstuff of oxidation to which they are exposed.

ACTION

Alinox inhibits the destructive processes causing radicals, avoiding the loss of nutritional value, flavour and aroma of food; and reducing the production of toxic compounds, odors and unpleasant flavors.
