

MACROGARD

IMMUNOSTIMULANTS

TIPE OF PRODUCT: IMMUNOSTIMULANTS

SUITABLE FOR: PIGS / POULTRY / PETS

DESCRIPTION

MacroGard® is a food additive rich β -1, 3/1, 6-glucanos, produced from a selected strain of Yeast *Saccharomyces cerevisiae*. It is a fine powder, beige to Brown clear, dry spray dryer.

MacroGard® is not a genetically modified organism.

PHYSICAL-CHEMICAL CHARACTERISTICS

Beta-glucanos %	Min. 60.0
Protein (N x 6.25) %	Max. 8.0
Moisture (105±2 ° C) %	Max. 9.0
pH (10% solution)	5.0-7.0
Metals heavy ppm	< 2.0
Ash %	Max. 12.0
Density g/l	Min. 350,0

MICROBIOLOGY

Count total plaque UFC/g	< 5000
NMP/g total coliform	< 10
Moulds/yeasts UFC/g	< 100
E. coli	Absent
Salmonella sp	Absent
Staphylococcus aureus	Absent
Enterobacteriaceae UFC/g	< 50

STORAGE

We recommend storing in dry and ventilated, pest-free local and away from chemicals and strong odors.

DURATION

24 months after the date of manufacture.

CERTIFICACIÓN

Management system quality certificate ISO9001:2008, HACCP, GMP and ISO22000 food security implemented.

PRESENTATION

Box of paper with internal bag of 25 kg polyethylene.
