

MEGAFRUIT

FRUIT FLAVORING

TIPE OF PRODUCT: FLAVORINGS

SUITABLE FOR: COWS / PIGS / HORSES

DESCRIPTION

National product in powder with intense aroma and taste of natural fruit, which has a balanced combination of acid, and green notes with antioxidants and fluidificantes of last generation to ensure greater stability relative to the physical and environmental changes affecting the product.

COMPOSITION

Impalpable fine salt, salt fine, calcium silicate, ethyl acetate, butyl Alcohol, N-Hexanol, range decalactona, Hexanal, ethyl lactate, Cis Hexenol 3, Trans 2 Hexenal.

INDICATIONS

- It is an optimal raw material of low quality and palatability masker to cattle, pigs on growth and completion, and equine.
- It conceals the changes in the composition of the food.
- It is imperative when it added antibiotics and metabolic promoters that inhibit the consumption of food.

ACTION

Megafruit stimulates receptors olfactory and taste, which causes an increase in salivary, gastric and pancreatic response, favouring the consumption of food.
