## INDICATIONS

- Important to improve weight gain and feed conversion.
- It speeds up the process of healing and maintenance of structures containing collagen.
- Improves the absorption of vitamins of the Group B.
- Improves reproductive parameters in all species.

## ACTION

- Structural part of more than 25 enzymes.
- It is an essential part of the reproductive process in all species.
- It is a key component for the use of insulin in the body.

## PRESENTATION

Bags of 25, 10 y 5 kg. of polypropylene in cardboard kegs.
